INFINITUS

MONOPHASE TRACKSYSTEM

INFINITUS

- Modern sleek profile + monophase tracksystem
- Can be installed directly on the ceiling or as a pendant
- Compatible with monophase trackspots and most pendants (track adapter required)
- Easy to install, easy to expand. Create advanced setups with L and T connection pieces
- Profiles available in 4 colours: black, white, brushed steel and brushed bronze (B/W/DG/BR)

INFINITUS

FELT COVER FOR INFINITUS

Infinitus felt cover sold per length of **1200mm**. Easy to cut to size and easy to install.

FELT ADVANTAGES

Made from **environmentally conscious material**, rPet is recycled from plastic bottles. By using rPET, you're repurposing plastic waste that would otherwise end up in landfills or oceans. rPET reduces plastic waste.

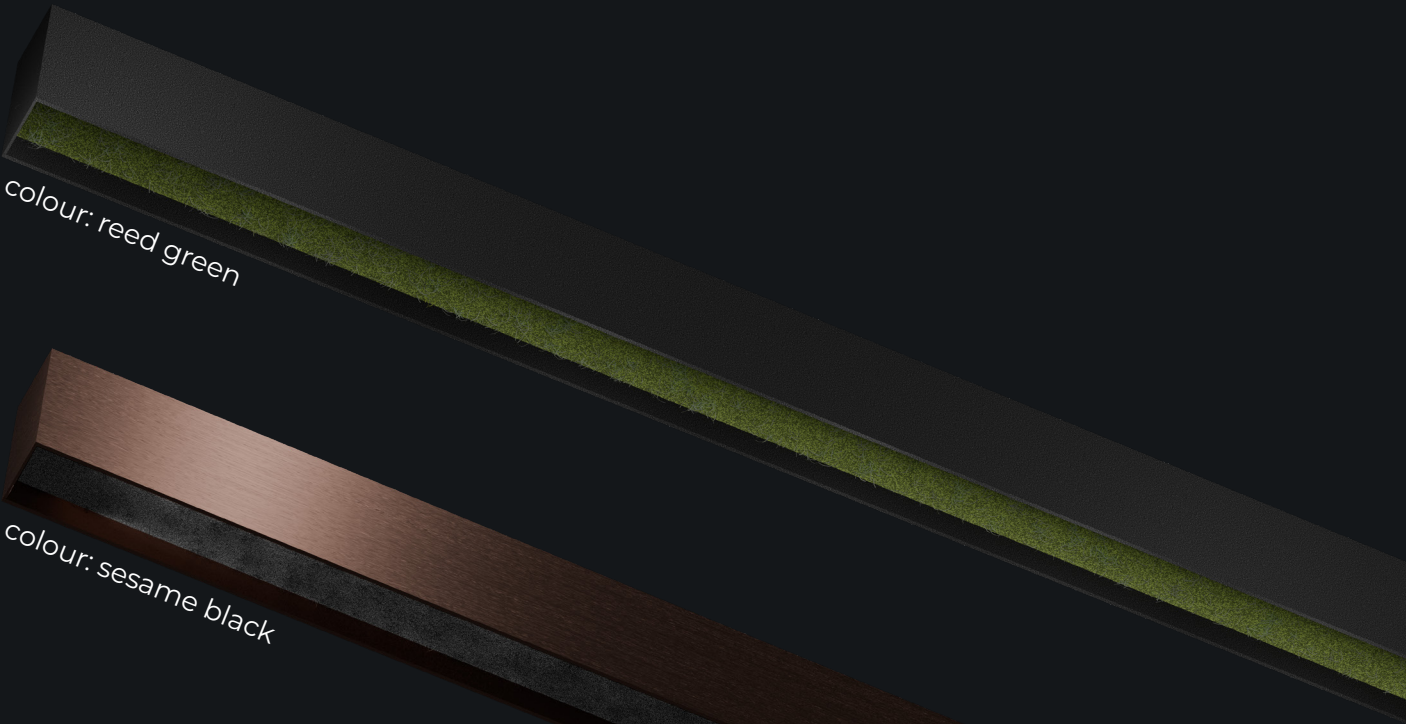

Sound absorbing, the densely packed fibers work to prevent the transmission of unwanted sound waves.

Fire retardant, slows down the spread of fire and reduces its intensity.

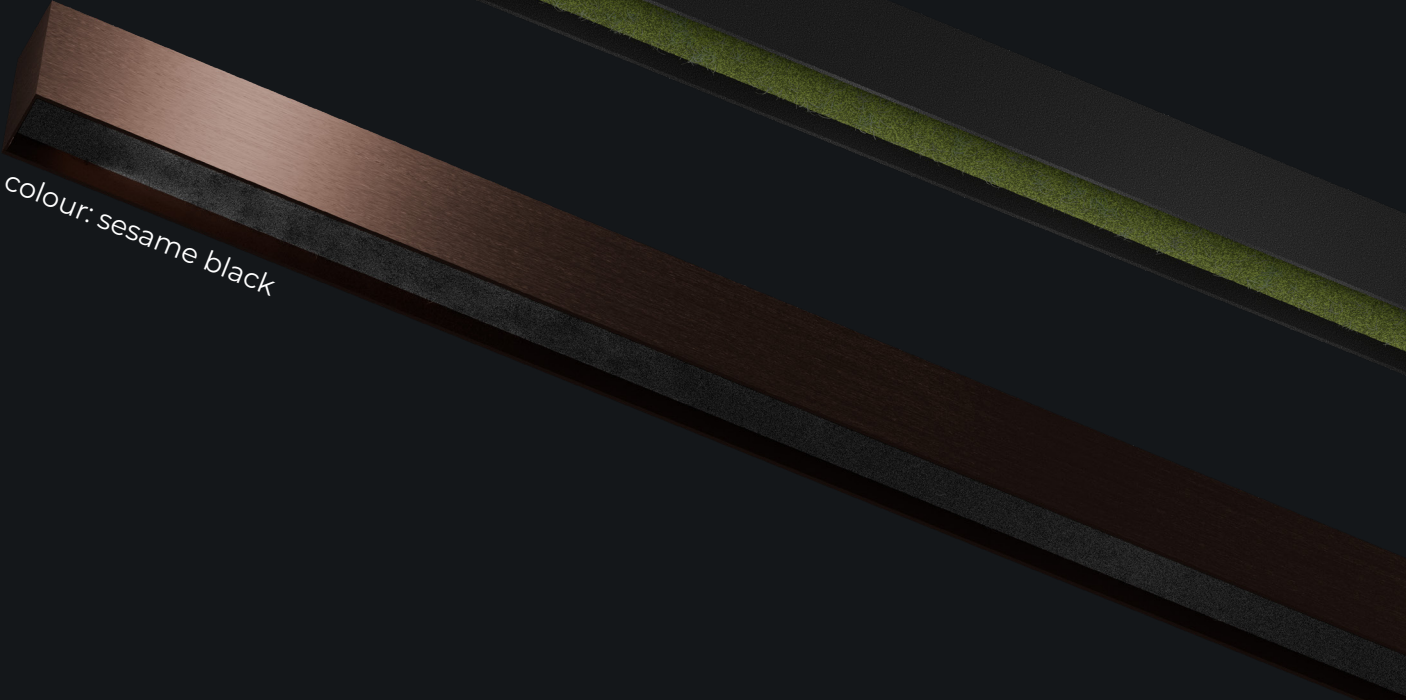

Moistureproof and **mouldproof**.

Safety, the felt cover prevents fingers and foreign objects from touching the 240V internal track.

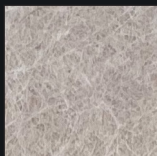

Adding coloured felt covers to your track system is a fun and easy way to bring personality and vibrancy to any space. Whether you're looking to match your décor or create a bold accent, the colourful options let you get creative and make your lighting truly your own.

TR0214B/W INFINITUS Safety cover, 1m

The safety cover protects the internal monophase track from external foreign objects and fingers.

Recommended when installing the Infinitus on a wall.

ORBIT

The ORBIT is a series of lighting fixtures with multi-functional optics and different kinds of profiles.

Available as spotlight and pendant for monophase tracks, and as wall light and ceiling pendant. Easily switch between 6W and 9W on the LED chip. The base of the ORBIT is always black, choose the correct optic and a corresponding insert, to create a light that suits your needs.

The ORBIT is dimmable, has warm white light 2700K, and a CRI >90.

4 different profiles and optics to choose from:

BIG LENS

The BIG LENS features a large and flat optic, it is a three-quarters spherical accessory with a minimum beam angle of 10°.

Optics available in 10°, 20°, 36° and 60°

MINI LENS

The MINI LENS is a spherical accessory with a mini recessed anti-glare reflector.

Optics available in 18°, 30°, 42° and 55°

Inserts available in different colours, gold, white, black and specular.

FLOOD LENS

The FLOOD LENS is a spherical accessory providing ambient lighting and flood lighting with a milky white diffuser optic (150°).

DECORATIVE LENS

The DECORATIVE LENS is a spherical accessory featuring flat cylinder optics with anti-glare and a decorative reflector.

Optics available in 15°, 24°, 36° and 60°

Inserts available in different colours, gold, white, black and specular.

XANDAR

- High-end modern monophase trackspot
- Professional quality AC COB LED included: CRI>90
- Warm white light (2700K), high lumen output
- Different lenses available (15°, 60°, 36° standard)

TR0142B XANDAR 10 Watt LED trackspot black
TR0142W XANDAR 10 Watt LED trackspot white

Available separately:

8202422
Gold insert

8202423
Honeycomb filter

LITHIUM

- Modern monophase trackspot
- Warm white light (2700K), high lumen output
- Also available in dim-to-warm (3000K - 2000K)

TR0140B LITHIUM 12 Watt LED trackspot black
TR0140W LITHIUM 12 Watt LED trackspot white

TR0141B LITHIUM 12 Watt LED dim-to-warm trackspot black
TR0141W LITHIUM 12 Watt LED dim-to-warm trackspot white

LOPAL

- Modern and slim design
- Made for monophase tracks
- Built in dimmable AC COB LED
- Warm white light (2700K), high lumen output

TR0150B LOPAL 4,5 Watt AC COB LED trackspot black
TR0150W LOPAL 4,5 Watt AC COB LED trackspot white

NYSIT

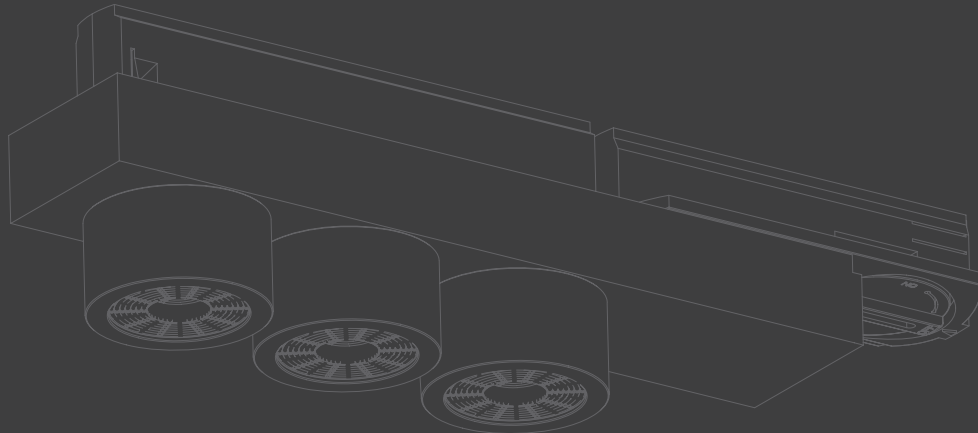

- Ready for GU10 LED spots (recommended bulb 8202650)
- Cylinders available in brushed aluminium, gold leaf, concrete look, antique copper, wood look, brushed bronze, brushed gold, brushed gun metal, white and black

TR0131B NYSIT trackspot black, GU10 LED excluded
TR0131W NYSIT trackspot white, GU10 LED excluded

Available separately:

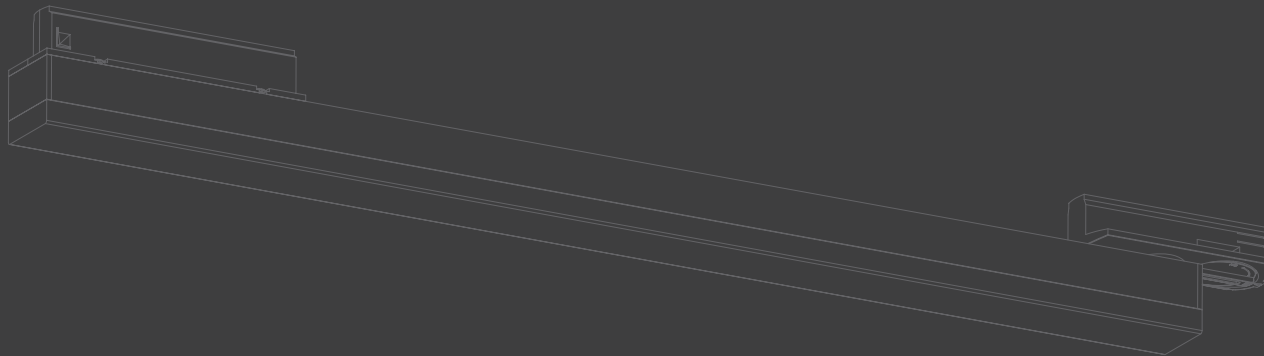

JUTAI NEW

- For Infinitus and 1f track
- Modern linear trackspot design
- Available in black and white
- 2 or 3 light spot version available
- Warm white light (2700K)
- Replaceable rings available in bronze, dark steel and gold
